

PRICE LIST GREAT BRITAIN

INTRODUCTION

The MINI Charging rates are governed by the maximum charging speed.

MINI Charging differentiates the following charging speeds:

AC – alternating current (normal charging)

DC – direct current (fast charging)

HPC – high power charging (ultra-fast charging)

The maximum charging power capacity of each charging station can be found on the MINI Charging website and the MINI app.

Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event. All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging process. The prices depend on respective charge point operators. For charging abroad (= e-roaming), you will always pay the local sales rate without any additional fees.

MINI CHARGING

The rates that apply to an individual charging event at the respective charging station can be found on the MINI Charging website and in the MINI app and are subject to change. Please familiarise yourself with the applicable rates before commencing the charging event.

The IONITY package has an initial term of 1 month. Thereafter, it runs for an indefinite period and can be cancelled by the customer with effect to the contract qualifying date. The contract qualifying date is the day of a month preceding the day equivalent to the date the package was booked. For example, if the IONITY package was booked on the 7th day of a month, the contract qualifying date is the 6th day of the following months. In case the respective date is non-existent in a particular month, the contract qualifying date is the last day of that month. Digital Charging Solutions GmbH, the company behind MINI Charging, may terminate the IONITY package with a notice period of one month (a) with effect to the contract qualifying date or (b) to the end of a calendar month. Furthermore, the IONITY package automatically ends if the Charging Contract is terminated.

1) Customers who have purchased a new fully electric or plug-in hybrid vehicle through a MINI Retailer and whose vehicle handover takes place on or after 01. April 2021 will receive the "bp pulse" package for one year without subscription fee if they have registered for the Flex tariff.

Thereafter, it runs for an indefinite period and can be cancelled by the customer with effect to the contract qualifying date. The contract qualifying date is the day of a month preceding the day equivalent to the date the package was booked. For example, if the bp pulse package was booked on the 7th day of a month, the contract qualifying date is the 6th day of the following months. In case the respective date is non-existent in a particular month, the contract qualifying date is the last day of that month. Digital Charging Solutions GmbH, the company behind MINI Charging, may terminate the bp pulse package with a notice period of one month (a) with effect to the contract qualifying date or (b) to the end of a calendar month. Furthermore, the IONITY package and the bp pulse Package automatically ends if the Charging Contract is terminated. After the promotion period, the package base fee will be charged to the customer.

Offers are only valid for the respective vehicle's initial contract. Offers cannot be transferred to other vehicles, owners or contracts. After the subscription fee exemption expires, the regular Flex Tariff conditions will be applied. This promotional offer applies to the package subscription fee only, usage costs remain the responsibility of the customer. This promotional offer does not apply to used vehicles.

2) The charging service contract runs for an indefinite period of time and can be terminated by the customer at any time from the reference date of the contract, with a notice period of no more than one month.

CHARGING EVENT TRANSACTION

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the MINI Charging service at free charging stations.

All rates incl. VAT, subject to changes and errors.
